5400 South Scoping Open House

A GOOD FLOW OF IDEAS CAN LEAD TO BETTER FLOW OF TRAFFIC

The Utah Department of Transportation (UDOT) is conducting a study in the area of I-215 and 5400 South to evaluate traffic mobility needs.

UDOT is holding an open house to get your input to evaluate the community's transportation issues. If you are unable to attend, you can still get involved by calling, e-mailing or visiting the project Web site.

Stay updated on the study process by joining our e-mail contact list. E-mail 5400southstudy@utah.gov with "Join the Contact List" in the subject line.

SE HABLA ESPAÑOL

El Departamento de Transporte de Utah (UDOT) está realizando un estudio para mejorar la movilidad y el flujo de tráfico en su comunidad, cerca de la I-215 y la 5400 South. Habrá una reunión pública para explicarle más al respecto el día Martes 20 de Abril de 5:30 a 7:30 p.m. en la Vista Elementary School. Para mayor información ó si necesita un intérprete, llame a Adan Carrillo al número (801) 975-4958.

Figure B6: Legal Notice

Utah Department of Transportation (UDOT)
Public Scoping Meeting
I-215 and 5400 South Mobility Study, Taylorsville, Utah
Environmental Impact Statement

UDOT and the Federal Highway Administration are preparing an Environmental Impact Statement (EIS) to evaluate regional transportation needs on the west side of the Salt Lake Valley. The study will analyze the area between 4700 South and 6200 South and between Redwood Road and 3200 West.

To provide for local and regional travel demands, the Wasatch Front Regional Council's regional transportation plan has identified the need for an improved transportation system in the study area. Alternatives under consideration include (1) taking no action (no-build), (2) transportation system management/travel demand management and (3) build alternatives to be considered. Alternatives include, but are not limited to (1) a collector roadway system, (2) addition of a grade-separated interchange at 5400 South and I-215 and/or improvements to adjacent grade-separated interchanges, (3) arterial roadway capacity and operational improvements, (4) transit, (5) combinations of any of the above and (6) other feasible alternatives identified during the scoping process.

The public, as well as Federal, State, and local agencies, are invited to participate in project scoping to ensure that a full range of alternatives is considered and that all appropriate environmental issues and resources are evaluated. The scoping process will include opportunities to provide comments on the purpose and need for the project, potential alternatives and any social, economic, and environmental issues of concern.

The public is invited to participate in a scoping meeting:
Tuesday, April 20
Vista Elementary School
4925 S. 2200 West, Taylorsville
5:30 p.m. to 7:30 p.m.

The scoping meeting will be held in an open house format. Project staff will be available to address questions one-on-one throughout the evening.

UDOT is asking for public input on the EIS. Comments will be accepted in writing at the scoping meeting online at www.udot.utah.gov/5400southstudy, by e-mail to 5400southstudy@utah.gov, by voice message to (801) 930-0470 or by mail to:

Julene Thompson
I-215 & 5400 South Mobility Study
c/o PPBH
1706 S. Major Street
Salt Lake City, UT 84115

Comments on project scoping are due by April 30, 2010.

In compliance with the Americans with Disabilities Act, individuals needing special accommodations during this meeting (including auxiliary communicative aids and services) should call Julene Thompson at (801) 487-4800 at least 7 working days before the meeting.

For additional information regarding the EIS, contact Adan Carrillo, UDOT Region 2 Public Information Manager at (801) 975-4958 or acarrillo@utah.gov.
